THE EDUCATION PROGRAMME

- BSc (Hons) SPORT AND EXERCISE SCIENCE WITH MANAGEMENT

Awarded by Loughborough University 15 hours of study per week, per academic year for 3 years.

DESCRIPTION

The BSc Sport and Exercise Science with Management degree offers the opportunity to study Sport and Exercise Science at one of the UK's leading universities. Students will develop your knowledge and understanding of Sport and Exercise Sciences and gain a scientific appreciation of the disciplines that underpin them including physiology, biochemistry, biomechanics, motor control and psychology. The Management module equips the learners with vital skills in marketing, organisational management, and accounting.

Students will also benefit from access to state of the art laboratories, which will allow you to develop your practical, scientific and laboratory skills enabling you to apply your knowledge and understanding in the context of sports performance, physical activity, health and wellbeing.

Train with our UEFA-qualified Professional Coaching Team

THE FOOTBALL PROGRAMME

Micky Adams (Pro Licence Coach) leads a team of UEFA A, B and C qualified licenced coaches providing a professional and dynamic football programme.
